Attention: Mr. Gilles Piché, QC Manager

**AMENDED QUALIFICATION STATUS**

Dear Sir,

Pratt & Whitney Canada has continued your qualification for the following processes:

Metal Removal by Non-Mechanical Methods	CPW 350 ECMR Sink on Co & Ni Base Alloys ECMR Sink on Martensitic SST ECMR Sink on Austenitic SST (Controlling Document FC-43)
Cleanliness Inspection	CPW 152 Category B (Lab Type Only) Category C Category D (Controlling Document FC-06)
Fusion Welding	CPW 24-2 – Process A CPW 24-3 – Process A <b>CPW 24-23 – Process T</b> <b><u>Restricted to P/N 30L3068-01 and 30L3097-01</u></b> (Controlling Document YC-03)

**In addition**, you are now qualified for the following process:

<b>Protective Treatment</b>	<b>CPW 20 suffixes E, T, OT</b> <b>(Controlling Document FC-44)</b>
-----------------------------	--

FC and YC sections of the P&WC Material Control Laboratory Manual establish controls for chemical and metallurgical processing performed by P&WC qualified sources. Compliance with these controls and applicable specifications is necessary for continued qualification.

Continuance of the qualification also depends on maintaining facilities, procedures, and controls to P&WC standards, as determined by our periodic surveys and on our routine testing of your product. Qualifications for materials and processes not used on P&WC parts for one year may be discontinued at the discretion of P&WC.
